Reader's Opinions

Darn funny. & Polly is definitely higher on the clever scale than me!Yr 1-3 kids will find it a hoot - and it could make for fun mini plays in class.

I read this because I'm friends with the grandson of the author. It was a fun little read which you can enjoy in little bites and each chapter is a story in itself that follows the same basic formula: the wolf wants to eat Polly, Polly outwits the wolf. Hope to read the other volumes in future.
