

THE FUTURE OF THE PROFESSIONS: HOW TECHNOLOGY WILL TRANSFORM THE WORK OF HUMAN EXPERTS

This book predicts the decline of today's professions and describes the people and systems that will replace them. In an Internet society, according to Richard Susskind and Daniel Susskind, we will neither need nor want doctors, teachers, accountants, architects, the clergy, consultants, lawyers, and many others, to work as they did in the 20th century. The Future of the Professions explains how 'increasingly capable systems' -- from telepresence to artificial intelligence -- will bring fundamental change in the way...

Peek Inside the Book

People generally prefer problem-avoidance and problem-containment to problem-solving. Richard Susskind, The Future of the Professions: How Technology Will Transform the Work of Human Experts //

Reader's Opinions

Book by two authors who have regularly written on the development of the legal profession now turning their attention to all professions. The book is engagingly (almost conversationally) written often whole sections dive into academic theory, but these are explicitly signposted, the conclusions set out in advance and in summary and...
