

MEDIEVAL ISLAMIC ECONOMIC THOUGHT: FILLING THE GREAT GAP IN EUROPEAN ECONOMICS

This book is a collection of papers on the origins of economic thought discovered in the writings of some prominent Islamic scholars, during the five centuries prior to the Latin Scholastics, who include St. Thomas Aquinas. This period of time was labelled by Joseph Schumpeter as representing...

Reader's Opinions

Good but repetitive, as there is substantial overlap among the papers in the volume. Some of the prose is even the same, here and there. I read this title to find things to troll teafags with. I have always associated the Islamic sphere with a variety of "conservative" customs, not just socially, which is obvious, but also economically....
